EXPERTISE

Angular

Spring Boot

.Net Framework

Python

Unity

LANGUAGE

English

Arabic

French

Spanish

WORK EXPERIENCE

06/2023-07/2023

Timsoft

Software developer

During my internship with Timsoft, I worked with the .NET framework on a connector generator project. I learned about the framework, collaborated with a team to design an intuitive user interface. This experience enhanced my understanding of software development and the practical application of the .NET framework in real-world projects.

EDUCATION

2022-2025

Higher Institute of
Computer Science

License in Computer Science

2023

CrocoCoder

Angular and Spring Boot Course

I gained practical experience in building dynamic front-end interfaces and powerful back-end systems. The training emphasized the seamless integration of both technologies for efficient full-stack web development.

2022

Amideast

TOEFL IBT Prep Course

I engaged in comprehensive study materials and interactive learning activities specifically designed to enhance my proficiency in the English language.

2018

GOMYCODE

Game Course Level 1

During my studies, I delved into various aspects of game development, including game design, programming, 2D modeling, animation, and sound design.
